

3RD GENERATION

HOMES

## About Us

With more than 14 years in the business and a lifetime of experience on construction sites, our team has seen just about everything. While there are constant surprises as we develop the Okanagan, our team meets each challenge with determination and leading innovation. Born and raised in the area, we understand the region's intricacies and believe the challenges have shaped our business and continue to influence the architectural designs we have the honour of building.

We value the dreams we help bring to reality, and we find immense satisfaction in the journey we take alongside our clients. Our commitment surpasses professionalism; it's a heartfelt dedication to turning your vision into a home that reflects your unique story.

## Vision

We operate as a family and pride ourselves on building homes like they're for one of our own. As a family-run residential construction company specializing in custom home building, we recognize the importance of understanding your landscape, the area, and our client's needs. We take a collaborative approach and have your best interest in mind every step of the way.

# Why Our Clients Choose Us

## HONESTY

### Keep it real.

They say honesty is the best policy and that's exactly how we operate – like an open book. We let you see every invoice, so you know where your money goes.

## INNOVATION

### Striving for excellence.

We are consistently working towards building homes that are more energy efficient, and are of higher standards than the building code.

## FAMILY

### Family first mentality.

For us, it's not just about the homes we build, but also the relationships. No matter how you define family, you'll be a part of ours by the end of the process.

## Testimonials

“

*We used 3rd Generation Homes to build our dream house on our property. It was a unique build as it needed to include the original, old farmhouse that was already on the property. The entire project turned out incredible and we are SO happy with it. Cassidy and Gerald did an amazing job at checking in and helping us to solve issues when they arose. We would 100% recommend 3rd Gen for a building project. Thank you Cassidy and Gerald for helping us put our vision to life!”*

*~ Joy Rempel*

“

*We built our dream home with 3rd Gen. We were out of town for the start of it and after meeting Cassidy and Gerald, we knew they were the ones to take on this project. Open communication, collaborative discussions and quality workmanship is how we would describe our experience with the 3rd Gen team. We never compromised on any of our ideas and as a result, we got the home we wanted. I think the real sign of how we felt about this company is the fact that we would build with them again, and would not hesitate to recommend them to others. And of course working with the Closer (aka Kevin) was the perfect way to bring it all together.”*

*~ Bonnie & Kevin*

“

*3rd Generation Homes was an excellent company to work with when building our new home. This was not the first home we've built so we have a bit of experience with the process and 3rd Generation was very easy to deal with. They are professional, highly knowledgeable and extremely helpful with making decisions and planning. We were completely confident with their work and suggestions throughout the building process. They were efficient and hardworking as well as on-time and on budget. We were also VERY impressed with the trades they hire. You can expect quality, dependable work.”*
